## The Industry Leader

**Hudson Civil Products (HCP)** has been synonymous with Civil Construction and Supply in Tasmania for many years, supplying major customers in a broad range of industries, delivering quality products and exceptional service.

Our goal is simple - **excellence** – both in service and product.

We also pride ourselves on our ability to deliver on time and on budget, and provide technical advice that is accurate, timely and reliable.

## The “One-Stop -Shop” for Civil Construction

**HCP** supply the full range of products needed for construction projects and maintenance works, delivering products for our customers in the water and wastewater industry, subdivision and development works, for road and bridge construction, municipal and irrigation projects, as well as industrial, commercial and rural projects, and much more.

Our key strengths are our experienced and knowledgeable staff, our range of more than 7,000 products as well as our ability to deliver novel solutions and custom-built items for any infrastructure project.

## Our Staff and Services

At **Hudson Civil Products**, we provide customers with a unique level of service through the experience and expertise of our staff. Whether recommending the right product for the job, or designing and delivering innovative solutions, our job is to make your job easier.

**Hudson Civil Products** sales and technical staff have the knowledge to ensure you have the information to make the right choices in product and design, and our staff are able to offer exceptional assistance to create individually tailored engineered solutions.

## Key Partners and Alliances

As well as manufacturing products locally, **HCP** also have access to quality products from the major brands.

Our key partners provide **HCP** with technical support for all of our products, allowing us to provide you with information and design assistance to devise appropriate solutions to suit your needs.

### Precast Concrete

**HCP** manufacture precast concrete items locally, in our Tasmanian factories by experienced local staff. Stock items include, municipal, rural and DSG-approved products, and **HCP** can manufacture almost any specialist engineered concrete or composite structure with our skilled staff and in-house expertise.

### Road, Subdivision and Municipal Infrastructure

**HCP** supply concrete pipe, box culverts, road and drainage infrastructure for construction of local, state and private roads (including manholes, pits and pipes). **HCP** also supply geo-synthetic products (geotextiles, grids, etc.) for any application.

### Pipelines and Plumbing

**HCP** supply all the major brands and quality products from our plumbing range. Our key partners provide **HCP** with technical support for all of our products, allowing us to provide you with information and design assistance to ensure all your plumbing needs are catered for.

### Environmental

- Solutions for stormwater treatment, retention, detention, reuse
- Pump stations and peripheral infrastructure
- Water and sewage treatment infrastructure
- Tanks, rainwater harvesting, and reuse

### Tasmanian Owned and Operated

**HCP** is 100% Tasmanian owned, and employs more than 60 Tasmanians. We are proud to manufacture in Tasmania, and are Tasmania's pre-eminent civil supplier.

### We back our products

**HCP** products are built tough to last. With our advice and recommendations, we can work with you to ensure products supplied are appropriate, durable, safe and effective for your application.

**HCP** manufacture using quality assured raw materials, and in accordance with quality manufacturing systems and skills honed over many years of experience in providing products to the highest standards across Tasmania – **you can rely on our products.**

### Company History:

- 1960 Jay Bee Cement Products commences manufacturing precast concrete products.
- 1988 Ken Hudson takes a 50% share in Jay Bee Cement Products.
- 1990 A new factory is built in Launceston for Jay Bee.
- 1993 Jay Bee commences selling plumbing and additional civil construction items
- 1996 Ken Hudson takes full control of the company.
- 1997 Michael Hudson joins the company as Manager.
- 2004 The Jay Bee agency in Hobart, Concrete Design, is purchased by Jay Bee Cement Products & Plumbing Supplies – creating **HUDSON CIVIL PRODUCTS.**
- 2005 Hudson Civil Products commences pre-casting in Hobart as the business grows.
- 2007 Hudson Plumbing & Environmental launched
- 2009 HCP acquires the adjacent site in Launceston and doubles its footprint - an expansion that sees it install an in-house batching plant and concrete pipe manufacturing facility.
- 2010 HCP moves to Gepp Pde in Hobart to a much larger site due to rapid expansion.
- 2015 Further expansion of the business and manufacturing increases
- 2016 Sales and admin staff expand to meet the needs of industry expansion
- 2017 Hudson Civil Products expands to open a facility in Devonport to service the Northwest Coast market
- 2018 A massive investment realized with the opening of the new state-of-the-art concrete pipe manufacturing facility, using vertically dry cast technology
- 2018 Additional technical, batching, and engineering staff are employed to service the needs of industry and provide further in-house capability and expertise for clients

**Our Vision:** *“To be the leading manufacturer and distributor of civil construction supplies, infrastructure, and pipeline solutions”*
